

Fig2-11 Annotation and genome mapping viewer
(mRNA variation viewer)

Database ver. 1.0&2.0

 same ORF region, same reading frame as selected reference cDNA

 same ORF region, 2nd frame

 same ORF region, 3rd frame

 different ORF region

 → same ORF region, same reading frame as selected reference cDNA

 → same ORF region as selected reference cDNA, 2nd frame

 → same ORF region as selected reference cDNA, 3rd frame

 → different ORF region

 → mRNA region (existed cDNA sequence)
